

CONCORD[®]
The Right Choice. Right Now.

4HP18

HEAT PUMPS

WHEN IT COMES TO HOME
COOLING AND HEATING,
THE RIGHT CHOICE IS AN
EASY CHOICE.

CONCORD® PUTS A LOT INTO
THE 4HP18. SO YOU'LL GET A
LOT OUT OF IT.

Choosing a heat pump doesn't have to be a hard decision. Concord's commitment to quality means the 4HP18 will work hard to deliver reliable, energy-efficient performance for years to come, making it the right choice every time.

SOME DECISIONS ARE TOUGH. THIS ONE ISN'T.

When you consider Concord systems, quality and value are givens. You're getting peace of mind with great features and smart designs that squeeze more efficiency out of every energy dollar. And best of all, you get it right now.

Two-stage operation delivers the perfect blend of comfort and smart energy use.

Because it's a two-stage heat pump, the 4HP18 has the ability to keep you comfortable by controlling temperature and indoor humidity levels. Most of the time, the 4HP18 will heat or cool your home using its lowest, quietest, most energy-conscious setting. However, when heating or cooling demands increase, it can switch to its higher setting for greater temperature control in extreme conditions.

A Concord heat pump is a smart investment every day of the year.

With a Seasonal Energy Efficiency Ratio (SEER) of up to 18 and a Heating Seasonal Performance Factor (HSPF) of 9.2, the 4HP18 can start saving you money the day it's installed.

Over the years, a hardworking Concord heat pump can save you hundreds of dollars in utility bills.

U.S. Average Five-Year Electric Cumulative Energy Savings for High-Efficiency 18 SEER Heat Pumps vs. 10 SEER. Energy Efficiency and renewable Energy Network, U.S. Department of Energy. The U.S. national average is used for electricity consumption. Actual cost savings may vary depending on personal lifestyle, system settings, equipment maintenance, local climate, actual construction, installation of equipment and duct system, hours of operation and local utility rates. This information is intended as an example for comparison purposes only.

Dual-fuel capable, for greater winter savings.

When the 4HP18 is paired with a Concord gas furnace, it creates what's known as a dual-fuel system. A dual-fuel system can use either gas or electricity to warm your home during cold months, whichever is most cost effective for the temperature.

THE FULL-FEATURED CONCORD® 4HP18 IS THE RIGHT CHOICE, RIGHT NOW.

- 18 SEER and 9.2 HSPF exceed federal energy efficiency standards and assure you substantial energy savings
- 10-year limited warranty on the compressor and parts* means lasting peace of mind
- Efficient, two-stage compressor is designed to operate at lower speed most of the time for quieter, money-saving operation
- Entire unit is 100% factory run-tested to help deliver the highest possible level of reliability
- Dual-fuel compatibility allows the heat pump to be paired with a matching gas furnace for even greater efficiency
- Quiet Shift™ design allows your heat pump to dissipate natural frost buildup automatically, with little or no noise
- Heavy-duty compressor sound blanket lowers operating noise

*Applies to residential applications only. For terms, conditions and exclusions, see full warranty at alliedair.com.

MAKE THE CONCORD DECISION YOU WON'T REGRET.

WHEN YOU THINK ABOUT EVERYTHING CONCORD DELIVERS, YOUR DECISION IS NO DECISION AT ALL. ENJOY THE PEACE AND QUIET OF CONCORD. THE PERFORMANCE AND RELIABILITY YOU WANT ARE RIGHT HERE, AND READY TO GO TO WORK. CONCORD. IT'S THE RIGHT CHOICE. RIGHT NOW.
