

CONCORD®
The Right Choice. Right Now.

80G1

GAS FURNACES

THE SIMPLEST DECISION YOU
CAN MAKE THIS SEASON.

**FEEL GREAT ABOUT YOUR
DECISION. THEN FEEL
GREAT ALL WINTER LONG.**

When you choose a Concord® 80G1 furnace, you're selecting a well-built, hardworking piece of equipment that's designed to be rugged and reliable season after season. That's what makes it the right choice to make.

SOME DECISIONS ARE TOUGH. THIS ONE ISN'T.

When you consider Concord systems, quality and value are givens. You're getting peace of mind with great features and smart designs that squeeze more efficiency out of every energy dollar. And best of all, you get it right now.

Comfort is built right in.

Inside every Concord 80G1 furnace, you'll find a rugged motor and smartly designed burners. These important details give the 80G1 the long-lasting reliability with less operating noise and consistent temperatures that helps you stay more comfortable.

Over the years, a hardworking Concord furnace can save you hundreds of dollars on utility bills.

Savings vary depending on use, geography, lifestyle, maintenance, installation and other factors. Chart depicts 5-year savings over less-efficient models.

Smart in every way.

The 80G1 furnace offers an Annual Fuel Utilization Efficiency (AFUE) of 80%, meaning it can convert 80% of the fuel it uses into heat you can feel. So you can stay comfortable, while spending less on utility bills.

A LOOK INSIDE THE RUGGED, HARDWORKING 80G1.

- An 80% AFUE* means the 80G1 converts a full 80% of the fuel it consumes into usable heat. That can help you spend less on energy every month
- A 10-year limited warranty on parts and a limited lifetime warranty on the heat exchanger (with registration)** mean lasting comfort and peace of mind
- The aluminized steel heat exchanger resists corrosion, and is crimped instead of welded for long life and safety
- The anti-vibration blower assembly helps reduce noise during startup and shutdown for peaceful, quiet operation
- Every 80G1 is started and operated at the factory to ensure it performs as expected and provides the highest level of durability

***Like the miles-per-gallon rating on your automobile, the higher the AFUE rating, the lower your fuel costs. All furnaces manufactured today must meet minimum AFUE requirements. If your furnace is 10–15 years old, it probably falls below the current minimum and wastes energy.*

***Applies to residential applications only. For terms, conditions and exclusions, see full warranty at alliedair.com.*

CONCORD® - THE DECISION YOU'LL CELEBRATE.

When you think about everything Concord delivers, your decision is no decision at all. Stay cozy. Stay comfortable. The performance and reliability you want are right here, and ready to go to work.
Concord. It's the right choice. Right now.
