

CONCORD[®]
The Right Choice. Right Now.

95G1

GAS FURNACES

CONSISTENT, AFFORDABLE
COMFORT ON DEMAND.

**CONCORD® MAKES CHOOSING
THE RIGHT FURNACE THE
SIMPLEST CHOICE OF ALL.**

A furnace can do more than make you comfortable. It can also make you feel confident. Concord builds every furnace to deliver on both counts. From rugged construction to energy efficiency to fast installation, it's the right choice to make every time.

SOME DECISIONS ARE TOUGH. THIS ONE ISN'T.

When you consider Concord systems, quality and value are givens. You're getting peace of mind with great features and smart designs that squeeze more efficiency out of every energy dollar. And best of all, you get it right now.

Comfort you can depend on every day.

The 95G1 is a smart choice for a more-efficient home. Its reliable single-stage motor and smartly designed heat exchanger create consistent temperatures that accommodate changing conditions in your home, so you'll always have plenty of cozy, warm air on hand whenever you need it. No matter what the weather is doing outside.

Over the years, a hardworking Concord furnace can save you hundreds of dollars on utility bills.

Savings vary depending on use, geography, lifestyle, maintenance, installation and other factors. Chart depicts 5-year savings over less-efficient models.

Efficiency you can appreciate.

Because of the way it's designed, the 95G1 can offer impressive fuel efficiency even in miserably cold weather. In fact, its Annual Fuel Utilization Efficiency (AFUE) of 95% means a full 95% of the fuel it consumes is returned to you as heat you can feel. That means it can help you spend less on energy even when the weather is at its harshest.

WHEN YOU GET THE 95G1, YOU GET A LOT. AND YOU GET IT NOW.

- 95% AFUE* means 95% of your fuel is converted into usable heat, for season-long savings
- A 10-year limited warranty on parts and a limited lifetime warranty on the aluminized steel heat exchanger (with registration)** mean peace of mind with your comfort
- A durable PSC blower motor will provide years of reliable operation
- The robust aluminized steel heat exchanger is crimped, not welded, for long life and safety
- Sealed service doors reduce burner and air noise
- An anti-vibration blower assembly reduces startup and shutdown noise for peace and quiet

**Like the miles-per-gallon rating on your automobile, the higher the AFUE rating, the lower your fuel costs. All furnaces manufactured today must meet minimum AFUE requirements. If your furnace is 10-15 years old, it probably falls below the current minimum and wastes energy.*

***Applies to residential applications only. For terms, conditions and exclusions, see full warranty at alliedair.com.*

MAKE THE CONCORD® DECISION FOR IMMEDIATE RELIEF AND LONG-LASTING COMFORT.

When you think about everything Concord delivers, your decision is no decision at all. Don't wait for the consistent comfort you need. The performance and reliability you want are right here, and ready to go to work. **Concord. It's the right choice. Right now.**
