

CONCORD[®]
The Right Choice. Right Now.

95G2V

GAS FURNACES

GET EFFICIENCY AND SMART DESIGN.
AND GET IT NOW.

**THE RIGHT CHOICE IS ALSO
THE EASIEST TO MAKE.**

Finding a reliable, efficient heating and cooling system doesn't have to be complicated. Tested for toughness, and designed to deliver substantial comfort and year-long efficiency, Concord® is a smart, simple decision every time.

SOME DECISIONS ARE TOUGH. THIS ONE ISN'T.

When you consider Concord systems, quality and value are givens. You're getting peace of mind with great features and smart designs that squeeze more efficiency out of every energy dollar. And best of all, you get it right now.

A variable speed blower lets the system do more for you and your savings.

Since the blower motor accelerates slowly, the furnace delivers a gentle stream of warmth, so you always have air that feels just right coming out of your ducts. Slower acceleration and deceleration also allow for quieter operation, humidity control and greater energy efficiency.

Over the years, a hardworking Concord furnace can save you hundreds of dollars on utility bills.

Savings vary depending on use, geography, lifestyle, maintenance, installation and other factors. Chart depicts 5-year savings over less-efficient models.

Enjoy worry-free operation and savings with two-stage heating.

The Concord 95G2V furnace is as flexible as it is dependable. Two-stage operation allows it to adjust heat output based on the temperatures inside and outside your home, so you're always using energy efficiently.

THE FULL-FEATURED CONCORD® 95G2V IS THE RIGHT CHOICE, RIGHT NOW.

- 95% AFUE* means 95% of your fuel is turned into usable heat, for savings all winter long
- 10-year limited warranty on parts and a limited lifetime warranty on the heat exchanger (with registration)** mean comfort with lasting peace of mind
- Efficient ECM™ variable-speed blower quietly creates even, steady temperatures throughout your home, while helping to control humidity
- Two-stage gas valve adjusts fuel usage based on heating demand to optimize energy usage
- Robust aluminized steel heat exchanger is crimped, not welded, for long life and safety
- ENERGY STAR® certification means efficient operation all year

**Like the miles-per-gallon rating on your automobile, the higher the AFUE rating, the lower your fuel costs. All furnaces manufactured today must meet at least 78% AFUE. If your furnace is 10–15 years old, it probably falls below the current minimum and wastes energy.*

***Applies to residential applications only. For terms, conditions and exclusions, see full warranty at alliedair.com.*

MAKE THE CONCORD DECISION FOR IMMEDIATE RELIEF AND LONG-LASTING COMFORT.

When you think about everything Concord delivers, your decision is no decision at all. Don't wait to get comfortable. The performance and reliability you want are right here, and ready to go to work.

Concord. It's the right choice. Right now.
